8. WHO WE MAY PROVIDE YOUR PERSONAL INFORMATION TO, AND WHY

Whenever you use a health or care service, such as attending Accident & Emergency or using Community Care Services, important information about you is collected to help ensure you get the best possible care and treatment. This information may be passed to other approved organisations where there is a legal basis, to help with planning services, improving care, research into developing new treatments and preventing illness. All of this helps in providing better care to you and your family and future generations. However, as explained in this Privacy Notice, confidential information about your health and care is only used in this way where allowed by law and would never be used for any other purpose without your clear and explicit consent.

We may pass your personal information on to the following people or organisations, because these organisations may require your information to assist them in the provision of your direct healthcare needs. It, therefore, may be important for them to be able to access your information in order to ensure they may properly deliver their services to you:

1. Hospital professionals (such as doctors, consultants, nurses, etc);
2. Other GPs/Doctors;
3. Pharmacists;
4. Nurses and other healthcare professionals;
5. Dentists;
6. Mental health practitioners & therapy providers;
7. Any other person that is involved in providing services related to your general healthcare as necessary.

9. OTHER PEOPLE WHO WE PROVIDE YOUR INFORMATION TO

We may also provide your information to:

1. Commissioners;
2. Clinical Commissioning Groups;
3. Local authorities;

6. Anyone you have given your consent to, to view or receive your record, or part of your record. Please note, if you give another person or organisation consent to access your record we will need to contact you to verify your consent before we release that record. It is important that you are clear and understand how much and what aspects of your record you give consent to be disclosed.
7. Extended Access - we provide extended access services to our patients which means you can access medical services outside of our normal working hours. In order to provide you with this service, we have formal arrangements in place with the Clinical Commissioning Group and with other practices whereby certain key "hub" practices offer this service on our behalf for you as a patient to access outside of our opening hours. This means, those key "hub" practices will have to have access to your medical record to be able to offer you the service. Please note to ensure that those practices comply with the law and to protect the use of your information, we have very robust data sharing agreements and other clear arrangements in place to ensure your data is always protected and used for those purposes only.
8. Data Extraction by the Clinical Commissioning Group - the clinical commissioning group at times extracts medical information about you, but the information we pass to them via our computer systems cannot identify you to them. This information only refers to you by way of a code that only your practice can identify (it is pseudo-anonymised). This therefore protects you from anyone who may have access to this information at the Clinical Commissioning Group from ever identifying you as a result of seeing the medical information and we will never give them the information that would enable them to do this.
9. Southampton Primary Care Ltd ("the Federation") – the federation is a grouping of nearly all general practices in Southampton, who act on behalf of practices in the provision of services for the member practices.

Third party processors

In order to deliver the best possible service, the practice will share data (where required) with other NHS bodies such as other GP practices and hospitals. In addition the practice will use carefully selected third party service providers. When we use a third party service provider to process data on our behalf then we will always have an appropriate agreement in place to ensure that they keep the data secure, that they do not use or share information other than in accordance with our instructions and that they are operating appropriately. Examples of functions that may be carried out by third parties includes:
